DETAILED ACTION

Claim Objections

1. Claims 1-11 are objected to because of the following informalities:

In claim 1, line 14, the word "the" should be deleted in front of the phrase longitudinal movement to improve the clarity of the claim language.

In claim 7, line 5, the word "a" should be added in front of tightener to improve the clarity of the claim language.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 13, the phrase "at least one supporting roller (22)" is confusing as it is unclear how it relates to previously recited supporting rollers of the second movable structure in line 9.

Claim 1 recites the limitation "said at least the first of said supporting rollers" in line 15.

There is insufficient antecedent basis for this limitation in the claim as this structure has not been previously recited.

Art Unit: 3617

Claim 1 recites the limitation "the movable supporting rollers" in line 2. There is insufficient antecedent basis for this limitation in the claim as this structure has not been previously recited.

Claim 1 recites the limitation "the fixed supporting rollers" in line 3. There is insufficient antecedent basis for this limitation in the claim as this structure has not been previously recited.

Allowable Subject Matter

4. Claims 1-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. None of the references of record suggests a track tightening device, wherein the second movable structure is equipped with fittings which interconnect with the guide system.

Response to Arguments

5. Applicant's arguments filed 03/06/2006 have been fully considered but they are moot in view of the new ground of rejection.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3617

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
